Release Notes- 1.246.5

The latest patch version of 1.246, which is patch 1.246.5 includes the following updates:

1. Group-based restriction on SMS Composing (New)

Earlier, the restriction on SMS Composing was only based on profiles. However, now we also have the option of restricting based on groups. In the Message Settings section of General Settings, you can edit your preferences for restricting SMS Composing.

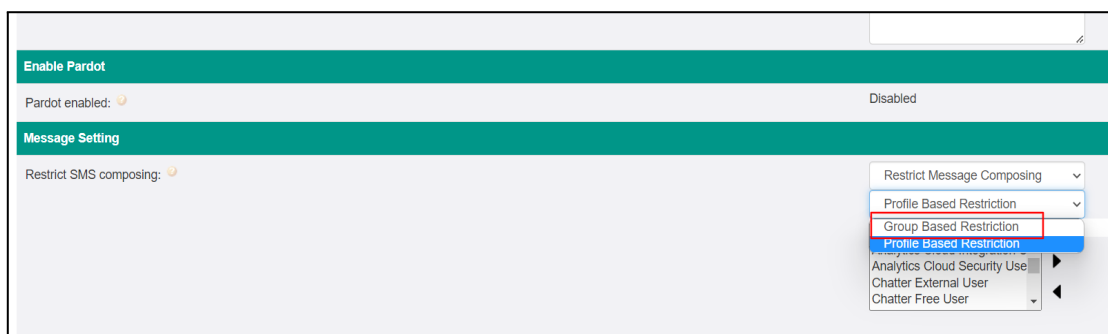

Fig 1: Restrict SMS composing

2. Duplicate Job Creation in Drip Campaigns (Bug Fix)

A bug was causing Drip Campaigns to send duplicate emails and messages. This issue has now been resolved.

3. Immediate Actions in Process Builder (Enhancement)

The immediate actions in the Process Builder were not executing according to the dark hour. This issue has been resolved.
